

## Clark County Prevention Partnership Youth Coalition

Agenda 7/28/2011  
First Meeting

### Call to order

- Introduction
- Why are we here
- Introduction to what Sara and I see this Coalition's purpose to be
- Merge the ideas of team to make some key goals for this year
- Talk about possible grants- Listeman?

### Coalition Interest Survey

- As people are filling out the survey we could start talking about how we want our coalition to look and function
- Discussion on key members of our team
- Long term/ Short Term projects
- Committees and projects

### Our Coalition

- Vision-
  - Making Clark County a safe, enjoyable place to raise children
- Mission-
  - We work together developing healthy environments that foster resilient, successful children, youth, and families
- Values statement
  - We strive to educate youth and parents in order to lessen the impact of poor decision making on their futures and the community.

### Planning for Next Meeting

- Plans for the next meeting
  - Times to meet
  - Goals to complete

### Adjourn

#### Committee Packets-

What is The Prevention Partnership, What is BLAST, Who do we Serve, Coalition Interest Survey, Notes Page, Copy of the Vision, Mission, Values statements. List of contacts

Amanda- Community Mapping, how to write statements M<V<Vision, goal setting sheets, Demo of BLAST projects/ video, contact list to write on, attendance,

Data- number of schools, alcohol summit, healthy Wisconsin goals,

Alcohol Summit- Since 2000 Wisconsin is ranked among the highest rates in the nation in: Adult binge drinking, chronic heavy drinking among adults, underage drinking, underage binge drinking, and self-reported drinking before driving. During this summit we were made aware that the research says that families who model low risk drinking behavior tend to have children who demonstrate low risk drinking behavior. Families who demonstrate high risk or ban drinking in their home are

Parent Survey- A parents survey was conducted in 4 school districts in Clark Co and the data was collaborated to determine what parents are concerned about for their children. The data indicated that Bullying in school was the number one concern, second was Alcohol, then Illegal Drugs, Stress, and Internet/Technology.

(this data scares me as we know that prescription drug abuse is very common among youth but parents had this listed as 14<sup>th</sup> out of 20 potential areas.)

We have issues with students in middle school reporting that they are riding in a car with an impaired driver, further discussion prompts that it is often a parent since 6-8<sup>th</sup> graders seldom have friends who drive.
